

# Medisoft® — The Confident, Compliant Solution for the New Realities of Healthcare

*Your small practice faces big challenges. With new government mandates, electronic health record (EHR) incentives and healthcare reform all on the near horizon, balancing change and the delivery of quality patient care can be overwhelming.*

*Medisoft® from McKesson has you covered. Medisoft provides the practice management system and EHR solutions that will allow you to comply with the new ANSI 5010 electronic transaction standards as well as prepare for the EHR stimulus incentives under the American Recovery and Reinvestment Act (ARRA). With Medisoft, you can optimize your financial position while enhancing the overall patient experience.*

*Tens of thousands of physician practices rely on Medisoft every day. With Medisoft, you can be confident that you have the solution you need today and tomorrow.*

## Medisoft Clinical

Medisoft Clinical seamlessly combines the Medisoft 17 (v17) practice management system with our award-winning EHR to help you greatly improve patient care and financial performance. Medisoft Clinical features [Bright Note Technology™](#), a state-of-the-art processing engine that enables physicians to complete an entire chart from a single note using their preferred input method.

Medisoft Clinical was specifically designed for Medisoft practice management users, making it the least disruptive path to EHR with a fully optimized interface and integrated practice workflow. Now that's smart.

## Medisoft Version 17

Introducing Medisoft v17 — the latest practice management solution from McKesson designed to prepare you for the new realities of healthcare finance.

Beginning in January 2012, healthcare providers must submit electronic transactions to Medicare and other payors in the new ANSI X12 version 5010 standard. With the ANSI 5010-compliant Medisoft v17 release, you can ensure that your claims will continue to be paid accurately and on time once the new standards go into effect.

Medisoft v17 is your complete practice management system that seamlessly and automatically manages scheduling, billing, reporting and revenue management.

Click [here](#) for an overview of the ANSI 5010 and revenue management enhancements included in Medisoft v17.

## Medisoft Connect

When it comes to getting paid for the healthcare services you provide, you've had options: clearinghouses... direct connections to payors... even paper claims. Now, there's a new option — Medisoft Connect, the comprehensive payor transaction service powered by [RelayHealth®](#). Medisoft Connect integrates electronic eligibility verification, claims management with pre-claim editing, and automated remittance services to simplify financial processes and improve the business of your practice.

# The Practical Choice for a Proven EHR/Practice Management Solution

Medisoft Clinical is a combined EHR/practice management system that enables you to implement a seamless solution — cost effectively and with minimized disruption to your busy practice.

Medisoft Clinical will dramatically improve the productivity, profitability and care quality of your practice. Use our [ARRA Eligible Provider Calculator](#) to estimate the incentive payment you might receive under ARRA.

## Bright Note Technology

[Bright Note Technology](#) is a dynamic processing technology that enables physicians and other providers to use their preferred charting style to populate complete charts and manipulate patient data automatically and efficiently.

Once the doctor saves the single screen note, Bright Note Technology takes it from there. With one touch, searchable information is by design delivered to relevant areas and tabs of the record.

The innovative solution gives practices quick access to patient information, enabling physicians to focus their attention on patient interaction. Choose templates, speech recognition, transcription, digital pen, dictation or Web-based patient data entry to complete the automated chart with methods you know and trust.

## Provider Dashboard

Physicians can use the provider dashboard to view critical patient information. Messages, incoming results and a daily patient schedule provide a single, simplified location for doctors and medical professionals to quickly and effectively review patient care and status.

## Clinical Reporting

Medisoft Clinical automatically generates searchable patient data to help you produce efficient and effective clinical care reporting. The new reporting capabilities enable your practice to easily enlist the EHR to help you qualify for incentives that encourage the use of EHRs.

*"Our Medisoft Clinical electronic health record is enabling my small practice to take our patient care and safety to a new level."*

— Judy L. Jones,  
Family Nurse Practitioner  
Waynesboro, Tenn.

*"Medisoft Clinical is the logical choice for physician practices using Medisoft practice management that want a smooth EHR migration."*

— Jackie DiCapo,  
Southern Medical Solutions

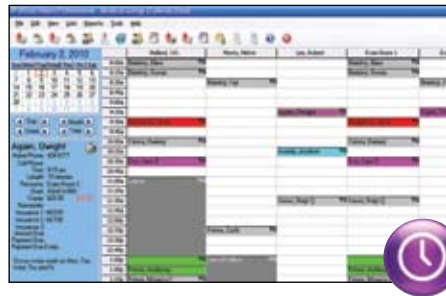

# Practice Management Tailored to Your Needs

Medisoft is a trusted, easy-to-use practice management solution that has the flexibility to meet the unique needs of your practice — today and tomorrow.

From the time your patient exams are scheduled to the time you're paid for their care, Medisoft v17 helps you manage your practice workflow — efficiently and affordably.

To learn more, contact your McKesson Value Added Reseller or visit us at [www.medisoft.com](http://www.medisoft.com).

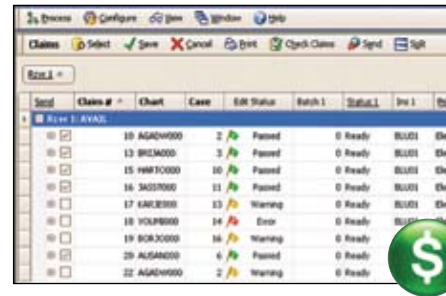

## Scheduling

First impressions can make or break a referral or patient experience. Keep patient satisfaction high with a streamlined scheduling process that reflects your efficient practice. Setting appointments that meet the needs of your patients and practice is quick and simple thanks to the flexibility of the Medisoft Office Hours Professional scheduler.

## Patient Statements

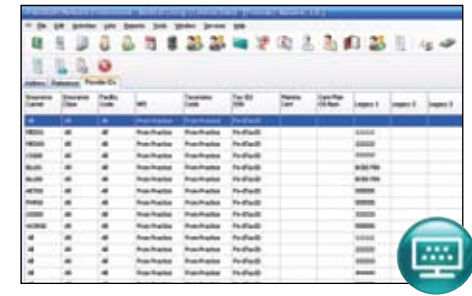

Patient statements are made easy with integration between Medisoft v17 and [BillFlash<sup>SM</sup>](#) from NexTrust. With BillFlash, you save time and money by uploading your patient statements directly from Medisoft. BillFlash will then print and mail your professional, patient-friendly statements. Learn more about the benefits of [BillFlash](#).

## Revenue Management

Ensure the accuracy of your claims before you submit them. The integrated eligibility checking and pre-claim editing features of Medisoft v17 allow you to review your filings for errors and make changes on the front end. The result: you can dramatically reduce the number of returned claims that cost your practice time and money.

The revenue management features also translate and display electronic remittance advice (ERA) in an intuitive window. The biller can efficiently review payment information, flag changes and post individual payments and adjustments.

## Billing

Customizable rules-based grids allow you to generate claims that quickly and easily meet the filing requirements of different carriers. With that level of flexibility your practice can manage virtually any claim submission. Medisoft v17 includes numerous enhancements to comply with the new ANSI 5010 standards.

## Reporting

Medisoft v17 includes more than 200 reports to help make your practice run smoothly. Medisoft Reports give unparalleled information on managed care plans, in-depth financial information, marketing statistics, service facility financial information, templates to export data for use in other software and the ability to run custom reports.

# The Right Choice, the Right Connection for Your Practice

To learn more, contact your McKesson Value Added Reseller or visit us at [www.medisoft.com](http://www.medisoft.com).

Medisoft Connect completes your practice management solution with healthcare connectivity services that strengthen the relationship between your practice and other providers, patients, payors, hospitals, health information exchanges, pharmacies and more.

Medisoft Connect payor transaction services, powered by RelayHealth, facilitate and accelerate the exchange of information between providers and payors. Electronic claims processing helps reduce A/R days and speeds up cash flow. Practices can also verify insurance eligibility — automatically and online. The front-end capability greatly reduces claim denials on the backend. ERA processing automates payment posting to reduce errors and administrative costs.

Electronic prescribing is another feature of Medisoft Connect that allows your practice to improve patient relationships and patient safety with better connections to pharmacies and patients.

Medisoft Connect:

- Accelerates payment and collections with real-time connections to payors
- Streamlines claims management processes and boosts staff productivity
- Connects to more than 1,800 payors nationwide for efficient claims processing

- Helps practices meet “meaningful use” and interoperability requirements under the American Recovery and Reinvestment Act (ARRA)
- Improves patient care and safety by offering better access to patient data
- Delivers efficient and secure communication between physicians, patients and providers
